The Organization of Healthcare Educators (OHE)

Numerous studies and articles have clearly identified the staggering cost – personal and monetary - caused by medical errors. In 2002, in response to this problem, the Joint Commission on Accreditation of Healthcare Organizations (JCAHO) established National Patient Safety Goals for hospitals, long term care and other healthcare providers. O.H.E. REPORT

ORGANIZATION OF HEALTHCARE EDUCATORS

About the Speaker:

Susan De Pietro, RN, MN, JD, Esq. is a regular contributor to O.H.E. Report for issues of interest to educators. She is a California State University, Los Angeles, Faculty Member and a Risk Management Consultant.

MESSAGE FROM THE PRESIDENT

With the assistance and support of my distinguished and dedicated Board, 2004 was a very productive year. The Board focused on assessing our member's education needs and preferences and confirmed that Friday remains the best day for programs. Based on attendance and evaluations we are On-Target with our programming as well.

A special thanks goes to Badrieh Caraway for her coordination of the program committees in which all members of the Board participated.

There were three programs at various Greater L.A. Area sites:

- January Installation Luncheon, "Life as an Educator...Lessons From the Field" with Joyce Johnson
- April program on Scope of Practice, "Whose Job is it Anyway???... RN/LVN/Unlicensed Assistive Personnel Roles" with Alice Takahashi, Georgina Garcia and Jody Junor.
- October Regulatory Update, "Nuts & Bolts of the Tracer Methodology - Notes From the Field" with Kathryn Ross, Elma Tulloch-Reid and Jamie Eisenberg.

The first Online Newsletter made its debut with the Summer edition. In a follow-up survey on your preferred method for receiving information 21 out of 29 respondents preferred electronic communication with two members requesting both. As a result we will continue to send the Newsletter electronically in 2005.

Thank you, Lori Valiquette for transitioning us to our new newsletter format and serving as our O.H.E Report Editor-in-Chief throughout 2004.

The O H E brochure that describes who we are, our history and our future was revised and converted from a tri-fold to 4-part format that includes a tear-off membership application. Thank you Keith Boyle!

Thank you to Marilyn Eisz and Elma Tulloch-Reid for helping me go through and organize many years worth of OHE history, records and documentation that lead to recommendations to the Board for Archive Maintenance. Despite the rain 18 new members joined us for the Installation Luncheon on January 28, 2005. Dr. Gregory Crow enlightened us with a dynamic presentation about E-Learning. After discussing the benefits and pitfalls of E-Learning he raised the very real challenges we face such as what issues to consider before making the investment in technology or evaluating why previous efforts may not have worked.

"You Were Born to Teach – The Building Blocks to Success with Elaine Brown, Keith Boyle, Suzanne Taylor, and Judy Sumner attracted new and experienced Educators struggling with familiar issues such as needs assessment and performance analysis needing reaffirmation and new approaches. Since curriculum errors are "serious, costly and cheat the learners", the afternoon session centered around the DACUM process, the latest method in curriculum development which has been successfully implemented at Children's Hospital Los Angeles and Northridge Hospital Medical Center.

I look forward to serving as your President in 2005. We have some wonderful programs to share with you as well as opportunities to work with your Board.
